IVY GLOBAL NEW SAT GUIDE EDITION 1.1

Thank you for purchasing Edition 1.1 of Ivy Global's *New SAT Study Guide*! We hope that you enjoy the use of this study resource as you prepare to take the SAT. Since printing this edition, we've made a few corrections:

1. On p. 731, the answer options for question #23 should read:
 - (A) 95% of the city's population prefers short-haired cats.
 - (B) The number of city residents who prefer long-haired cats is most likely between 5,920 and 8,244.
 - (C) The number of city residents who prefer short-haired cats is exactly 7,082.
 - (D) The number of female city residents who prefer long-haired cats is greater than the number of male city residents who prefer long-haired cats.
2. On p. 809, the function for question #2 should read $y = -x + 1$.
3. On p. 815, question #26 should read: For what values of x is $f(x)$ nonnegative?
4. On p. 872, the answer options for question #23 should read:
 - (A) $2a + 42$
 - (B) $a + 42$
 - (C) 42
 - (D) $a - 42$
