## Ivy Global New SAT Guide Edition 2.2

Thank you for purchasing Edition 2.2 of Ivy Global's *New SAT Study Guide*! We hope that you enjoy the use of this study resource as you prepare to take the SAT. Since printing this edition, we've made a correction to one of our questions:

---

- On p. 362, question #9 should read

$$x^3 - 125$$

If the expression above is represented by  $(x - b)(x + b)(x + b) - xb$ , what is the value for  $b$ ?

- On p. 464, question #6 should read:

If  $\cos(217^\circ)$  is multiplied by 2, which of the following statements is true?

- A) Since  $\cos(217^\circ)$  is negative, the result will be negative.
  - B) Since  $\cos(217^\circ)$  is equal to 1, the result will be 2.
  - C) Since  $\cos(217^\circ)$  is equal to 0, the result will be 0.
  - D) There is not enough information to determine the result of this equation.
- On p. 611, question #6 should read:

The graph above represents the function  $y = mx + b$ . Which of the following is the equation for  $x$  as a function of  $y$ ?

- A)  $x = my + b$
- B)  $x = -my + b$
- C)  $x = \frac{y - b}{m}$
- D)  $x = \frac{-y - b}{m}$

- On p. 726, the correct answer for question #8 under Part 5: Modeling Data is **2**.

We understand you may have some questions about recent changes by the College Board. Feel free to email us at [publishing@ivyglobal.com](mailto:publishing@ivyglobal.com). We will respond within 24 to 48 hours.
